

WELCOME and THANK YOU for applying to be a practice member in our clinic. We are a very unique team specializing in researched-based spinal correction and muscle integration techniques. These methods have enabled our practice members to achieve optimal health where other systems have failed. Because of this specialized approach, we may not accept you as a practice member until we are absolutely certain we know the cause of your condition, that we can perform the necessary tests to establish an optimal program for you, and are completely confident we can help you recover your health. Please know, if we do accept you as a practice member, we will make specific recommendations based upon our understanding that YOUR HEALTH will become YOUR TOP PRIORITY. Thank you again for applying to be a practice member in our clinic.
